

START-N-GROW

24/24

Multi-Species Milk Replacer

From day one, ensuring your livestock are healthy, thriving, and resilient is your top priority. That's why it's essential to choose a high-quality nutritional product that supports optimal development.

AAP Start-N-Grow Multi-24 | 24 is a non-medicated, multi-species milk replacer formulated with By-O-reg+, a proprietary essential oil blend protected by CF²⁰ coating technology. This innovative addition supports gut health, immune function, and nutrient absorption for optimal growth, performance, and overall health in calves, piglets, foals, llama and alpaca crias, deer fawns, and elk calves.

FEEDING DIRECTIONS

Newborn animals should receive colostrum within the first 6 hours of life, ideally on the first day. Colostrum, the initial milk produced by the mother, delivers vital nutrients and immune support essential for early health and growth. Always provide access to clean, fresh water.

Species	Age	Milk Replacer Powder Per Feeding	Warm Water Per Feeding	Feedings Per Day
Piglet	Day 1	Colostrum Replacer		
	Day 2 - 10	1/3 - 2/3 scoop	1/4 - 1/2 pint	4
	Week 2	2/3 - 1 scoop	1/2 - 3/4 pint	3
	Week 3 - Weaning	1 - 1 1/2 scoop	1/2 - 2/3 pint	3
Goat Kid / Lamb / Llama & Alpaca Cria / Deer Fawn / Elk Calves	Day 1	Colostrum Replacer		
	Day 2 - 10	2/3 - 1 scoop	6 - 8 fl oz	3
	Day 11 - Weaning	1 - 1 1/3 scoop	8 - 10 fl oz	3
Foal	Day 1	Colostrum Replacer		
	Day 2 - 7	3 scoops	1 - 1 1/2 pint	6
	Week 2	3 scoops	2 - 3 pints	4
	Week 5 - Weaning	3 scoops	2 - 3 pints	3
Calf	Day 1	Colostrum Replacer		
	Day 2 - Weaning	7 scoops	2 quarts	2

Mix milk replacer into warm (110°F - 120°F) water. Stir until the powder is completely dissolved. Feed at animal's body temperature. Only mix enough powder for one feeding at a time. Please use enclosed scoop (approximately 1.4 oz) for milk replacer powder measurements. Warm water is measured by volume. This milk replacer is meant as a supplementary feeding. Do not exceed feeding recommendations. Contact your veterinarian for nutritional requirements.

All milk proteins for superior digestibility and improved muscle and structural growth

Designed to feed young animals from 2 days of age to weaning

Complete nutrition for successful growth and development

24%

High protein and fat content provides growth and energy for healthy animals

STORAGE

Store at room temperature in a dry place. Use mixed product immediately—do not store.
